Education

University of California, Berkeley

B.Sc., Electrical Engineering and Computer Sciences (*GPA: 3.87/4.00*)

Berkeley, CA

Expected May 2022

Monta Vista High School

(*GPA: 4.00/4.00*)

Cupertino, CA

Aug. 2014 - Jun. 2018

Related Coursework

**In Progress*

Multivariable Calculus

Discrete Math & Probability Theory

Data Structures

Machine Structures

Designing Information Devices & Systems I and II

Signals & Systems

Machine Learning*

Algorithms*

Programming Languages: Python (Keras, TensorFlow), Java, HTML/CSS/JS (ReactJS), L^AT_EX

Experience

IoT Engineering Intern

May 2019 - Aug. 2019

Intel Corporation

Chandler, AZ

- Developed and published brain tumor segmentation demo on the Intel DevCloud. Used U-Net (convolutional neural network for biomedical applications) architecture for inferencing on MRI brain scans and identifying brain tumor matter. Benchmarked inferencing on edge hardware, including CPUs, VPUs, and FPGAs. Worked with Keras, TensorFlow, and OpenVINO deep learning models in FP32 and FP16 precision formats.
- Programmed Excel Visual Basic scripts and Power BI visualizations for product demand tracking and forecasting.

Frontend Engineer

Sep. 2018 - Present

Berkeleytime

Berkeley, CA

- Worked on course catalog visited by 100,000+ unique users annually under the UC Berkeley student government, ASUC Office of the CTO.
- Dynamically compiled and visualized data related to grade distributions and enrollment trends. Designed course catalog pages with faster load time and intuitive user interface.
- Utilized web development libraries such as ReactJS, Bootstrap, and Bulma.

Volunteer Exhibit Interpreter

Jun. 2016 - Aug. 2016

The Tech Museum of Innovation

San Jose, CA

- Taught scientific concepts including QR code technology, aerodynamics, and robotics to the general public.

Projects

Reddit Image Bot

Jan. 2018

A bot that parses Reddit forums and comments related Google images. Coded in Python, implemented BeautifulSoup for image scraping and PRAW for extracting Reddit threads.

Awards

EECS Honors Program, Business Management

UC Berkeley EECS Dept.

Jan. 2020

U.C. Berkeley Leadership Award

Cal Alumni Association

2018, 2019

Finalist, National Merit Scholar

National Merit Scholarship Corp.

Feb. 2018

Candidate, U.S. Presidential Scholars Program

US Dept. of Education

Jan. 2018

1st Internationally, Automotive Services Marketing

DECA Competition

Apr. 2018
