

Education

University of California, Berkeley

PhD, Computer Science - Artificial Intelligence

Advisor: Trevor Darrell

Research Interests: Vision and Language

MSc, Electrical Engineering and Computer Sciences (*GPA: 4.0/4.0*)

BSc, Electrical Engineering and Computer Sciences (*GPA: 3.9/4.0*)

Berkeley, CA

Expected May 2027

May 2022

May 2021

Publications

- **Grace Luo***, Giscard Biamby, Trevor Darrell, Daniel Fried, Anna Rohrbach. *G³: Geolocation via Guidebook Grounding*. Findings of EMNLP 2022.
- Giscard Biamby*, **Grace Luo***, Trevor Darrell, Anna Rohrbach. *Twitter-COMMs: Detecting Climate, COVID, and Military Multimodal Misinformation*. NAACL 2022.

Experience

Research Intern

May 2022 - Aug. 2022

Descript

Montreal, QC

- Worked on video research at Lyrebird, acquired by audio/video editing startup Descript with post-money valuation of \$500M.
- Designed models for synthesizing high-resolution lipsynced videos using Wav2Lip and visual super-resolution methods.

SWE Intern

May 2021 - Aug. 2021

Google

Seattle, WA

- Worked on MLOps in Google Cloud Vertex AI.
- Built Bayesian structural time series models for anomaly detection, including contributing to TensorFlow Probability and building production-level pipelines via Kubeflow Pipelines.

Activities

Open Source Investigations Contributor

Aug 2021 - May 2022

Investigative Reporting Program

Berkeley, CA

- Published article in collaboration with the Associated Press on charter airlines.
- Built custom web scraper with Selenium for analyzing flight data.
- Built web app for uploading case data to Aleph, a collaborative workspace used by investigative journalists.

Chief Technology Officer

May 2020 - May 2021

ASUC Student Government

Berkeley, CA

- Cultivated cross-organizational partnerships and managed student-facing products such as Berkeleytime, Berkeley Mobile, and Beehive. Managed 50+ student developers and started new projects for in-house web hosting, degree planning, student life APIs.

Tech Lead

Sep. 2018 - May 2021

Berkeleytime

Berkeley, CA

- Led product and engineering vision for course planning site with 50,000+ monthly pageviews. Previously worked as frontend engineer, including building a mobile version of the site for responsive viewing. Utilized libraries such as ReactJS, Bootstrap, Redux, and Recharts.
